DETAILED ACTION

This action is in response to Amendment filed November 16, 2005. Claim 1 has been amended as requested by the applicant.

Response to Arguments

Applicant's arguments, see Amendment, filed November 16, 2005, with respect to claim 1 have been fully considered and are persuasive. The rejection of claim 1 has been withdrawn. The applicant amended claim 1 to overcome the prior art of record.

Allowable Subject Matter

Claims 1 and 8 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art of record fails to teach or suggest a system for measuring optical characteristics comprising a laser that is not a pulse laser a first frequency generator and a second frequency generator where the second frequency generator is phase-locked with the first frequency generator offset from the signal of the first generator a single mode fiber coupled to the laser and a detector to receive backscattered radiation by the optical fiber.

Claim 8 depends from claim 1 and is allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
